Country Hosts Say They Can't Afford Nine-Foot Sheets.

SHRINK IN WASH, ANYHOW

Besides, "Agriculturists" Would Steal Them-Individual Towels a "Luxury."

[By Telegraph to The Tribune l Albany, March 5.-The woes of the country hotel keepers were retailed to the Assembly Committee on Public Health to-day to show why they should not be compelled to furnish nine-foot sheets and individual towels. Assemblyman Phillips's measure were introduced at the request of the comtravellers of the state, who nliege that they ought to have sheets long enough to turn back over the dirty bed clothing ounter in some places.

John McGlynn, of Troy, represented the New York Hotel Men's Association. He Fire Commissioner Joseph Johnson, jr., and tears in his voice, that his clients could not afford to buy nine-foot sheets. Besides, sheets that long would firemen of first class cities this afternoon shrink in the wash. Anyhow, the mills at a hearing before the Senate Cities Commade sheets only ninety-nine inches long.

William Kohn, representing the New York district of the Upholsterers' International Union, told the committee that an investigation, conducted by organized labor. showed that it was not uncommon for mattresses to be made of straw used as bedding for horses, and out of the filling of dis carded hospital mattresses. He was speaking in favor of prohibiting the use of unclean material in the manufacture of mat tresses and providing that they be labelled to show what they contain and whether they are new or second hand. He said : report made by the committee of the labor organization had been submitted to the

"Junk dealers," he said, "are the one who sell the manufacturers such material for mattresses. In the case of hospital for mattresses. In the case of hospital mattresses used by sick persons, we have found they often find their way to mattress manufacturers after having been surceptitiously sold to junk dealers."

W. H. Robinson, a manufacturer of New York, also spoke for the bill and corroborated much that had been said by Mr. Kohn. E. E. Ramsdell, of Rochester, representing the United Commercial Travellers' Association, argued that the improvements contemplated by the bills would conduce to better health among the travelling public generally.

TEACHERS FOR COLNE BILL Back Move to Equalize Payment | that frauds in the sale of homes to aller of Pensions Here.

[By Telegraph to The Tribune.]
Albany, March 5.—At a hearing this afternoon before the Assembly Cities Committee the representatives of several asso ciations of teachers and principals of New York City appeared in favor of the bill of Assemblyman Colne, of Brooklyn, to equalize the payment of pensions to all members of the teaching staff of the public schools in New York.

It is claimed that now several principals, district and associate superintendents, as well as City Superintendent Maxwell, are discriminated against in the benefits of the teachers' retirement fund. The present law provides that a teacher on retirement shallof \$1,500, which is less than half the pay of some of the superintendents and principals The Coine bill would remove the \$1,500 limit and retire all on half pay, regardless of the amount of their salary.

However, because of the objections of eme of the elementary teachers to the till, an amendment was agreed on at the bearing by which all persons receiving an nual salaries of \$2,000 are to pay 2 per cent of their salaries to the pension fund, and those under that amount I per cent.

TRANSFER BILL BEATEN Assembly Rejects Measure by Majority of Three.

(By Telegraph to The Tribune 1 Albany, March 5.—By a majority of three votes the Goldberg bill providing for free transfers on surface railways in New York City was defeated on a motion for its advancement to day. The usual motion to have the vote reconsidered and the motion for advancement laid on the table so that the bill may have another chance was made, but it is believed that there is little hope for the measure.

The argument on the bill lasted about

two hours. New York members of both parties favored it, and most of them voted for it. Assemblymen Colne, Dana and Schmidt, however, could not withstand the pressure that was brought to bear on them by Republican leaders, and during the roll call remained in the lobby, not voting either way. Their votes would have resulted in the advancement of the bill, a Assemblyman Wende, of Buffalo, voted against the measure, so that he could move for reconsideration of the vote in case i was defeated. The members from Kings-Ebbets, Heiberger and Langhorst-voted

with the opposition. New York members who were absent re Barnes, Heyman, Farrell, Bell, Levy, Mathewson, McKeon, O'Nell, were Barnes, Ruddick and Singleton. Assemblyman Walker was delayed by a late train and arrived just too late to vote for the bill. Assemblyman Goldberg, A. E. Smith, A. J. Levy. Greenburg and Cuvillier urged the passage of the bill in the debate, while it was opposed by Assemblymen Parker, of Washington, and Hinman, of Albany. The

vote was 60 to 57. Majority Leader Young read a letter from the Forty-second Street Association, of New York, announcing that each member who voted against the bill might expect his record to be sent to every voter in his

Mr. McGoldrick appeared in per-"Don't those shrink?" queried Mr. Phil- son, while the Fire Commissioner and Fire Chief expressed their opinions to the committee in a letter.

Commissioner Johnson said the two platoon system was tried eight years ago and found to be destructive of discipline He threatened to drop his efforts to in rease the wages of firemen if the agitation were kept up, saying that the services of the men under the two-platoon bill would not be worth the extra compensation. Senator Harte remarked that he had received many petitions from New York firemen for the bill, but that he felt this threat had undoubtedly prevented many rom appearing at the hearing.

Fire Chief Kenlon sent a report saying that when the two-plateon system was tried eight years ago for eighty-one day there were 117 charges against men of the battalion. He said the men showed a gen-
